

Bespoke Miniature Room Handcrafted by Sara Brinkhurst

Everyone has a favourite room in their home or a period in history that appeals to them. Here is an opportunity to have your dream room created, just for you!

Sara has been creating miniature dream spaces since she was 15. If you can describe it, she can make it. It can be in a room box or an interesting/sentimental object (clock, small cabinet etc). The more you bid, the more detailed and personalized it can be!

The pictures show examples only, since no two rooms will be exactly the same. Sara will consult with you to design and build your ideas, or just give her a few ideas and see what happens. It's not a fast process, but *will* be with you in time for Christmas 2024.
